

## Allocation to Areas of Practice

The following table is designed to give further guidance on the allocation of fee receipts to areas of practice. These guidelines are not intended to be exclusive, nor will the allocation in the table always be appropriate for every individual case which falls within the general description in the right hand column. The appropriate test is the underlying subject matter of the work from which the income is derived, not the court or other forum for proceedings, although this may assist in identifying the appropriate allocation. The identity of the client is not relevant (save for the purposes of the column on the renewal form headed (“% CROWN”).

Please do not hesitate to consult the Managers for specific guidance in case of any doubt about the appropriate allocation.

	<b>AREA OF PRACTICE</b>	<b>INCLUDES:</b>
C	ADMIRALTY	Salvage, maritime collisions, limitation funds
D	COMMERCIAL (including Financial Services)	Aviation Banking & Financial Services Carriage of Goods Civil Fraud Commodities Information Technology Insurance/reinsurance Media and Telecoms Shipping
